

AI Use Declaration Form

Course: Introduction to Artificial Intelligence

Lab Title: Lab 1 Part A — Uninformed Search Algorithms

Student Name: Nana Asantewaa Osei Bonsu

Student ID: 11782028

GitHub Repository Link: <https://github.com/Tewaa-01/LAB1.git>

Date Submitted: 20th June, 2026

1. AI Use Summary

Question	Student Response
Did you use any AI tool for this lab?	Yes
Estimated percentage of the work influenced by AI	21%
Did you attach evidence of AI use where applicable?	Yes

2. Details of AI Use

Complete the table below for each AI tool used. Add more rows where necessary.

Name of AI Tool Used	Purpose for Using the Tool	Prompt or Instruction Given to the Tool	Part(s) of the Work Influenced by the Tool	How I Verified, Edited, or Improved the AI Output
Chat GPT	Debugging an attribute error in the search class method interfaces and checking	"I am getting an <code>AttributeError: 'GridProblem' object has no attribute 'initial'</code> when running my DFS class in a template. How do I resolve this according to an	Section 10 (<code>DepthFirstSearch.search</code>) syntax corrections, and verifying structural layout.	I checked the suggested solution against the abstract base class definitions in Section 2, updated <code>problem.initial.state()</code> to <code>problem.initial_state()</code> , and manually ran the code top-to-bottom to ensure all unit tests passed.

	code logic syntax.	abstract base class using <code>initial_state()</code>		
Gemini	Conceptual review and clarifying definitions for uninformed search performance metrics.	"Explain why the upper-level nodes are repeatedly searched in Iterative Deepening Search (IDS) and why its memory footprint is low compared to BFS."	Section 15.5 (IDS Reflection Questions) conceptual structuring.	I took the raw conceptual explanation of exponential tree growth and rewrote the answers entirely in my own words, grounding them directly in the unweighted grid navigation context of the drone scenario.

3. Attachment of AI Output Evidence

Where required, attach evidence of AI use. Tick all that apply. Add more rows where necessary.

Evidence Type	Attached? (Yes, No, N/A)	File Name
AI-generated draft	N/A	
Prompt history	Yes	
Screenshot of AI interaction	No	
Exported AI conversation	N/A	
AI-generated code snippet	Yes	
Revised version showing student input	Yes	

4. Student Declaration

I declare that:

Declaration Statement	Response (Yes/No)
The submitted work is my own work.	yes
Any use of AI tools has been clearly declared in this form.	yes
The prompts, instructions, and AI-generated outputs have been disclosed where applicable.	yes
I reviewed, tested, edited, and improved any AI-generated content before submission.	yes
My AI usage does not exceed 25% of the entire work.	yes
I understand that undeclared or excessive AI use may be treated as academic misconduct.	yes
